

"Our perception of quality is to manufacture products which are fit for their intended purpose and which therefore meet and enhance customer expectations"

Our Quality Policy aims:

- To establish a clear understanding of our customers' expectations of **pandaprint** as a supplier.
- To ensure that we have the resources to meet customers' expectations as a condition of accepting orders.
- To ensure that at every stage in procurement, formal checking procedures are carried out and any necessary corrective actions taken.
- To ensure that everyone within **pandaprint** has a clear understanding of "Quality" and that the preventions of poor quality are more profitable than its detection and correction.
- To ensure everyone within pandaprint understands that they have a very important part to play in the achievement of quality and that the senior management team provides the training and resources necessary for its achievement.
- To ensure ISO9001:2008 quality assurance procedures are used as a benchmark.

Quality Assurance Management

pandaprint's management approach is centred on delivering our range of services in accordance with the expectations of our customers. This is achieved through a number of quality assurance process controls and accepted good practice procedures which are endemic in our system and are managed and coordinated through our Management Information System.

"pandaprint operate a documented Quality Assurance scheme which is wholly based upon ISO 9001"

Companies are judged by the company they keep . . .

here are a few of our print partners:
